

**“Our tutors... teach us to be better citizens and show us how to make our lives better.”**

My name is Sarah. I like YMCA because it is a fun place to learn. We have heaps of opportunities to grow our skills and knowledge to help us think about our future. My favourite thing about the YMCA is how we are family and we talk like family and we make decisions as a family.

A few days ago some of us made some bad choices, but rather than getting kicked out we were given the opportunity to make things right. As a group we decided the consequences. Through this process we got to see how our actions have hurt those not involved and made us think about what we could do differently. Our tutors don't only teach us literacy and numeracy; they teach us to be better citizens and show us how to make our lives better.
